

...Delivering complete storage solutions

Introduction

SWL Group is a family run business established in 1979, supplying a wide range of storage solutions and services throughout the United Kingdom.

Our aim is to provide our customers with top quality products and services at competitive prices, supported by friendly and expert advice from our own sales and technical support teams.

Our bespoke design service will guarantee efficient use of your storage space.

Pallet Racking

Pallet racking is ideally suited to this scale of commercial warehouse. Illustrated here is a 'Free standing' 14 tonne capacity unit with 2700mm beams with a weight capacity of 2.2 tonnes per level.

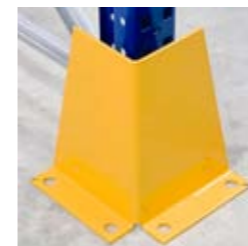

Pallet Racking

We can offer a full range of pallet racking including mobile, double deep, narrow aisle, drive-in, push back, live storage, specialised and more.

Our systems compare with the best on the market and they conform to **SEMA** and **FEM** regulations.

The systems can be made up of either 10 ton or 14 ton capacity frames. We have a broad range of sizes and accessories, including both wood and metal decking, full safety barriers, guards and far more besides.

- Strong & versatile shelving
- Fast and simple assembly
- Huge choice of accessories
- Open or clad bays
- Shelf widths 1350 - 3300mm Including Custom Sizes
- Shelf depths 900, 1050, and 1100mm
- Bay loads up to 14000kgs
- Easily dismantled and re-configured
- Durable & attractive powder coated finish

Long Span Racking

A long span racking system has been installed here as the most efficient way of maximizing this companies storage needs.

Long Span Racking

Our long span systems have been designed to provide economical storage whilst giving unrivalled strength and rigidity.

The design offers a strong upright with a central tapered slot which gives a secure friction connection whilst being easier to install the beam levels. The frames come in all heights and depths. The beams are available in various sizes.

- A heavy duty racking system for all your bulky needs
- System can be expanded as your needs grow
- Heavy duty 'Z' beams support over 1000 kg UDL
- Hard wearing epoxy powder coated
- Levels can be adjusted every 50.8mm (2")

Rivet Racking

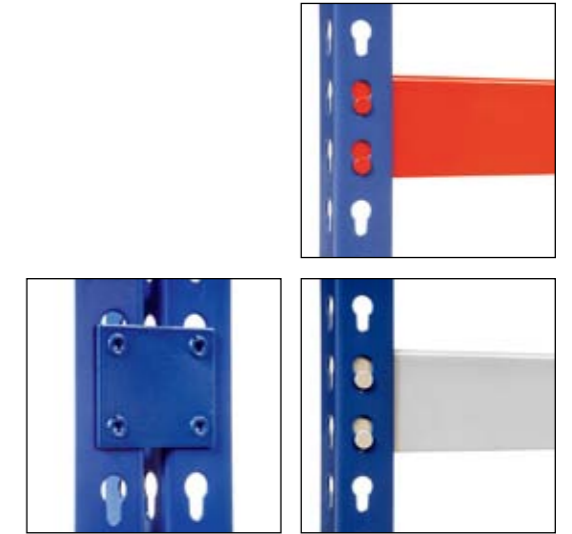

Rivet Racking is an ideal storage solution for smaller lightweight items. We can supply units with weight limits of 150 - 650kg per shelf making rivet racking a versatile and cost effective system.

Rivet Racking

Our rivet racking offers incredible value for money, whilst still giving amazing strength and rigidity.

The system is yet simple to build with all parts being tapped together with a rubber mallet. All components are joined via the heavy duty rivet and key hole slot which offers a simple and effective way of assembling the racking.

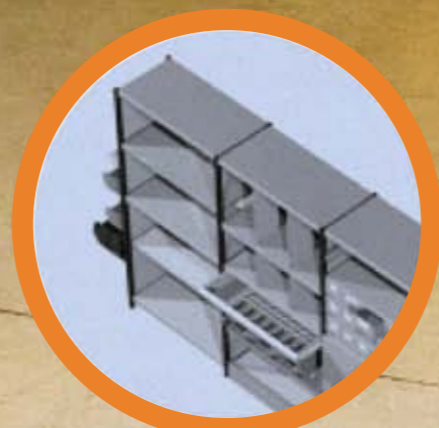

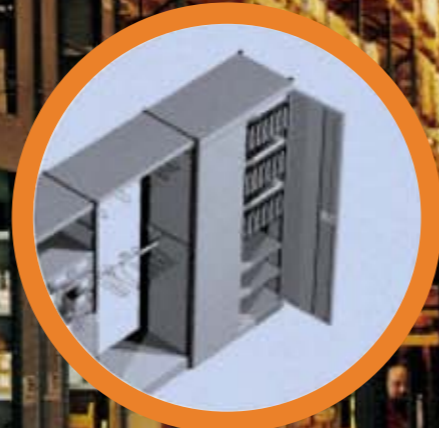

- No nuts or bolts required
- Can be assembled within 5 minutes
- High capacity heavy duty shelves
- Available in various colours

Shelving Solutions

Illustrated here is a 'Multi-tier' shelving system that has a highly versatile configuration. The shelves can be specially adjusted to suit their contents therefore avoiding wasted space. This type of shelving is ideally suited to small component storage.

Shelving Solutions

SWL Group offer a wide range of shelving systems including: live, and automated live storage, boltless shelving, multi-tier shelving and racking, mobile archive storage systems and much more. Bespoke designs are easily handled by the technical support team at our head office.

SWL Group have a shelving system to suit you.
